

THOMAS D. FITZGERALD PASSES AWAY

What Was Considered Only a Bad Cold Developed Into a Case of Apoplexy and the End Was Very Sudden—Remains Will Be Shipped to Clinton, Iowa, Friday.

THOMAS D. FITZGERALD!

Anacanda was shocked yesterday evening with the news of the death of Judge Fitzgerald. Only the very intimate friends and neighbors of the family knew that he was sick and even Mrs. Fitzgerald was not aware that he was afflicted with anything worse than a bad cold.

That she proposes to bury her beloved husband. The body will be embalmed and shipped east on the train that leaves this city on Friday evening at 6:35 o'clock.

Thomas D. Fitzgerald was born in the County of Waterford, Ireland, 58 years ago, and came to New York when a boy and lived in that city about three years. He had a good education and was considered an expert bookkeeper.

One day during recent weeks Judge Fitzgerald visited some mining claims which he owned and which are situated near Georgetown. It is said that he walked around in the snow and visited each of the claims. He became exhausted and got his feet and legs wet and when he returned home he was compelled to remain indoors because of a bad cold.

When the news that Judge Fitzgerald had died became public there were many who could not believe it and the expressions of profound sorrow and surprise were universal throughout the city. During his lifetime there were none to say that he was not a gentleman in all that the word implies.

The remains are now in the hands of the undertaker and are being prepared for shipment to Clinton, Iowa, for burial. Clinton is the former home of Mrs. Fitzgerald, and it is there

Nothing has been heard from it. It probably will be several days before the names of all who were killed by the tornado are known.

A special to the Gazette from Heber says:

In the tornado which swept across this section last night A. C. Williams, living 10 miles south of Heber, was killed. He was 70 years old and lived with his wife on one of the mountains south of this town. His house was caught up by the wind and thrown down the mountainside, he being killed. His wife was badly injured and is not expected to live. A white man named Houston, living near Williams, had both arms broken.

At Pangburn six residences were blown down.

A large church near Pangburn was blown half a mile. At Little Red post-office Albert Kiler, Albert Dorile, Walker Pollard, Mrs. Pollard and Tom King lost their houses, barns and other buildings.

TO ADDRESS IRISHMEN

JOHN T. FINNERTY AND THE HON. JOSEPH DEVLIN TO SPEAK.

IN ANACONDA ON APRIL 17

First Opportunity to Hear a Discussion of the Famous Land Bill Question—Raising Funds for the Warfare.

Much to the delight of hundreds of Irishmen in the city word was received yesterday that John T. Finnerty and Hon. Joseph Devlin would be in Anacanda on April 17 and would address the citizens here in connection with the formation of a branch of the United Irish League of America. This will be the first opportunity that the Irishmen of Anacanda have had of listening to a discussion of the Irish land question, and it is expected that great crowds will attend.

As is well known, Mr. Finnerty is the editor of the Citizen of Chicago, one of the most forceful of the Irish papers edited in America. Mr. Devlin is an Irish member of the British parliament, and has been in this country some months organizing the Irish league and raising funds to carry on the war in Ireland against "landlordism." Last month more than \$10,000 was raised and sent to Ireland for that purpose.

Owing to the difference of opinion in Anacanda the lecture will be largely attended and listened to attentively. The Irish land bill was recently introduced in the house of commons and has already passed its first reading. It contemplates loaning about \$500,000 to the Irish tenants for the purpose of buying out the landlords. They would be given 49 years in which to pay this sum back.

Many of the Irish think the scheme a good one, and are in favor of the bill. Others believe that owing to increasing competition conditions might change within that time, and the people would be merely pressed in an order to pay back the large amount that they are at present with the existing high rentals.

These believe that the proper course to follow is to continue the warfare until the landlords are bankrupt. It is argued that the landlords have been gradually becoming bankrupt since the days of the mighty Land league, organized by Charles Stewart Parnell. It will be to raise funds to continue this warfare that Mr. Finnerty and Mr. Devlin will be heard here. No matter what the opinion of the hundreds of different Irishmen, it is certain that large crowds will turn out to hear the eloquent gentlemen.

HE SHOWS HIS GENEROSITY

S. C. ADAMS ADOPTS A NOVEL ADVERTISING SCHEME.

Distributes 1,500 Union Cigars and Circulars to as Many Union men.

To Call Attention to His Line of Union Clothing.

That S. C. Adams of the Adams department store is thoroughly up with the matter of advertising was shown yesterday when he adopted one of the most novel plans ever attempted here. Mr. Adams has just received a large consignment of union-made clothing and dry goods, and recognizing the popularity of the union movement here, he determined to emphasize this feature in the advertising of his goods.

Yesterday he hired six men and with himself and a helper he went to the new works and there distributed circulars and cigars to more than 1,500 men. The cigars were bought at the different union stores, the circulars bore the union stamp and the clothing advertised was all made by union labor. The men were seen on the street cars and as they left work and in this way the large majority of the laborers were interviewed.

Mr. Adams' scheme met instant favor, and the union men employed at the works were loud in their praise of his enterprise. The cigars were of the very best, and the circulars set forth the merits of the goods in an attractive manner. While the plan was an expensive one, Mr. Adams believes that it will do him, as he is henceforth to handle only a high grade of union-made clothing, hats, shoes and other wearing apparel.
