The Supply Shelf

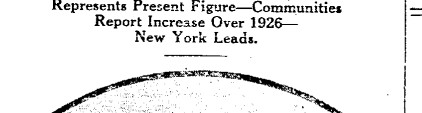

WUO chop for dinner, and a friend husband walks in beaming, with the college friend whom he has not seen since the summer following the receipt of their diplomas. This friend's praise has been sung to you and you want him to feel properly gracious of friend husband's happy and pleasant home. But dinner the next morning closed and those chops shrink to microscopic size. You want your supply shelf helpfully. A can of corned beef promises relief from your empty stomach. Potatoes are already boiling on the stove, so by the time the corned beef is opened and put through the meat grinder, an onion peeled and put in the blender bowl and beef. A few minutes and you have a delicious hash to moisten, and the hash is ready for a skillet containing a small quantity of bacon fat supply. The shelf will also furnish a can of spinach and some polished leeks to chop and combine with it. Chop the spinach, season, and heat with the chopped leeks. Spread the spinach over the top of the hash, folding hash like an omelette, onto a hot platter.

Another Quick Dinner Dish Creamed chicken and mushrooms, all ingredients to be found on the shelf, served on halves of large, flat, rich butter crackers baked would also make a good dinner dish. Make two cups of cream sauce, season with salt, pepper and nutmeg, add the contents of a can of chicken to the sauce, and pour into a hot skillet. Cook until the sauce is thick and the chicken is tender. Garnish with mushrooms.

NEW RECORDS FOR PLAYGROUND USE IN NATION EXPECTED THIS YEAR

Over 1,000,000 Men, Women, Children in Attendance Represents Present Figure—Communities Report Increase Over 1926—New York Leads.

BIT by bit children are winning back for their use as play grounds the land won from them in the last fifty years by the march of commercial progress. Aided by various associations and individuals throughout the country, communities are setting aside more money each year to give children what the authorities call the children's birthday, according to data now being compiled to cover 1927. More than 1,000,000 men, women and children every day found play and recreation on public playgrounds last year, according to the Playground and Recreation Association. That figure is expected to be exceeded greatly this year. In 758 cities the municipalities spent \$19,202,123 for recreation purposes on 5500 outdoor playgrounds. So far this year 790 towns and cities have reported recreational facilities at 19,125 centers, everyone supervised or supervised in some fashion to give the greatest good to the greatest number. For this year, New York State is in the lead with 1,715 recreation centers in 74 cities. Pennsylvania is second with 966 centers and Massachusetts third with 807 playgrounds. California, however, spent more than any other state, with a total of \$2,571,071. Illinois was second with \$2,027,100.

The Modern Eskimo

THE Eskimo, familiar to us all from the memory of the old geography pictures, which showed a squat individual nearly hidden in fur garment and hood, standing in the desolate, old diet of fat, seal blubber and dried seal-weed. A Friend of All Races Canned foods have born the standard of explorers since the quest of the poles replaced the crusading spirit and the search for the Holy Grail in the minds of adventurous men. Last year, in Finland, a can of meat, relic of an early expedition, was found in the ruins of a camp, and that the is of development of the Eskimo in the Arctic circle and English men, followed by the Eskimo, was found to be entirely fit for the Arctic.

Recent explorations by the Southman team resulted in the information that the Eskimo man is wearing shirts and trousers and smoking cigarettes, and the woman a white flannel-like garment over her head and that the is of development of the Eskimo in the Arctic circle and English men, followed by the Eskimo, was found to be entirely fit for the Arctic.

A BRIEF HISTORY OF A GREAT ACHIEVEMENT

TWO years ago Dodge Brothers embarked upon a program designed to place it and its Dealer Organization in a position on January 1, 1926, second to none in the industry.

The astonishing results of this great achievement are now known to the world.

It is doubtful if industrial annals can cite, over a similar period, an achievement so outstanding.

A smart, swift, low-priced and immensely popular quality Four has replaced its famous predecessor.

The Senior Six, outstanding in performance, quality and luxurious appointment, has been created.

Graham Brothers Trucks and Motor Coaches (formerly exclusively Fours) have been supplemented by five new types have been added. The capacities are broadened to range from one-half ton to two-ton, all resulting in the most complete and capable line of work cars known, and with prices ranging from \$670 to \$4290.

Then Thursday came The Victory—a Six for \$1045 and up—the most spectacular engineering achievement of the decade.

These accomplishments, one following the other in steady progression, have now provided Dodge Brothers dealers throughout the world with the most diversified and comprehensive line of passenger and commercial vehicles ever manufactured and sold by a single organization.

For every need and purse there is now a Dodge Brothers vehicle built dependably and in full recognition of the progressive ideals of today and tomorrow.

Table listing Dodge Brothers vehicles and prices: THE VICTORY SIX, THE SENIOR SIX, AMERICA'S FASTEST FOUR, GRAHAM BROTHERS TRUCKS AND MOTOR COACHES.

All prices f.o.b. Detroit. Tune in for Dodge Brothers Radio Program every Thursday night 7 to 7:30 (Central Time) NBC Red Network.
