VGL. 47-NO. 1270

REGISTERED AS A

NEWSPAPER.

Limerick County Council has whose buiden has become all but acted very properly in calling tite; unbearable tion to the high rate of interest at present charged by the Local Loves Fund for loans under housing and Tuesday, there was more than sea other schemes of probe utility

equitable that public bodies, in spite ed description, and did not include of the first class security they can many really nice herfers. For so offer, and activities inding the curr late in the season there were a fin mony extent of their borrowing number of buyers in the market for should be charged a rate of 51 per a nice sappy herfer likely to make a cent for monies but wed in the prodairy cow. Enquiry is still proterests of public welture

It is manifestly clear that there eash. is sen thing seriously wrong with a financial system which impose such an unjust burden on the gen eral taxpayers. It is equally covioas that a properly conducted y tem of mance should make it no sible for local bodies to secure banat a much lower rate of interest than is at present charged them Unfortunately such a welcome relief carnot be hoped for while the present conditions of par actional finances is permitted to containe,

can and should be brought about is purely a neitter for experts, but here a difficulty arises a expects are evidently not anxions for a change This attitude of mind, however, does not relieve the Government of itobligation to the citizens who should not be allowed to suffer indefinite servitude at the hands of fined faltask masters.

The finances of the nation, instead of being exploited for the advantage of one class, should be available, on rea onable terms of course, for the benefit of the community as a work-

Satisfaction will be expressed by the residents of the town of Glin at the announcement made at Satur day's meeting of the Co Council with regard to the water supply

Up to the present this out roots ing and progressive town has been very severely hand-camed owing to the thence of a proper supply of 53s, ; small 37s 6d to 46s; huggets, water for domestic barposis, and this despite the fact that money ie quired for the project we haved some two years ago.

Owing to some anforced on um stances, however, the start of oncrations in this very necessary work was he'd up, much to the disappoint um durally fe't that they were be- devotions in connection with the such ingency.
