> Freedom called for some release from the depressing scenes which appear to have left an unrelenting hatred of tyranny in any form on his young mind. From his own door he saw the houses of those tenants on the O'Grady Estate who were unable to pay their rents after the partial famine of '79 given to the torch and burned to the ground. He saw his father redeem the only cow a poor cottier had, to assist in raising a young family, from the hands of the bailiff, and which had been seized for default of a few shillings rent. And so the awakening intelligence of youth saw wrongs that should never have been and there are ways that should operate in righting such wrongs.

On his father's farm a semi-circular into the glen wasted land, and so he straightened the stream line. In after days he straightened the Chicago River turf from the bog-banks, from where money collected, afraid of international Maude Cleary, Budgaden; W.
