

NEW RATE FOR CITY STRUCK

Special Meeting Of Municipal Council

LEVY EXPLAINED

Increase Of 6d.

At a special meeting of the Limerick Corporation last night, the Mayor (Ald. D. Bourke, T.D.) presiding, a rate of 25/6 was struck for the service of the financial year beginning 1st April next. This is an increase of 6d. as compared with the current impost.

Several members congratulated the Manager (Mr. T. C. O'Mahony) on his budget. The Mayor said that Limerick was faring very well as compared with other centres like Cork and Dublin.

Ald. Reidy criticised the Government for increased national taxation, and said that the ratepayers were now compelled to carry a proportion of charges that should be borne by the State.

In defence of the Government, the Mayor pointed out that the national taxation could have been reduced by £2,000,000 if the Fianna Fall Government had carried on in the same lines as the previous Government.

NATIONAL CHARGES

Reply To Criticisms

The Mayor (Ald. D. Bourke, T.D.) presided at a special meeting of the Limerick Corporation last night for the purpose of considering the rate for the service of the financial year beginning 1st April next.

The other members present were—Ald. J. Reidy, Ald. A. E. Goodwin, Councillors F. P. Quinn, P. Donnellan, J. Dalton, M. Hartney, J. C. Hickey, M. Daly, P. Bourke, M. J. Keyes, T.D.

In presenting his estimate and demand for a total rate of 25/6 in the £, the City Manager (Mr. T. C. O'Mahony) said:— "In pursuance of Section 33 of the Limerick City Management Act, 1934, I submit for your consideration my estimate of the amount which will be necessary to meet the expenses and provide for the requirements of the Corporation during the financial year ending March 31st, 1939.

"The estimated gross expenditure is £181,891; the estimated receipts from all services other than rates £55,119 leaving a net expenditure of £126,772. This is reduced by an estimated balance in favour at the end of the current year of £5,077, leaving a net expenditure of £121,695 which will require a rate of 25/6 in the £.

ARREARS OF RENT

Due Since Grandfather's Time

TENANT DENIES UNDERTAKING

"I don't know that the Board provide cottages on the contingency of matrimony prospects," remarked District Justice Kenny, B.L., at Rathkeale Court on Monday, when it was stated on behalf of a Board of Health tenant that it was his intention to settle down.

The case was one in which Limerick County Board of Health had proceedings against David Wren, Ennisoch, Rathkeale.

Mr. R. J. Cussen, solr., for Wren, said that his client had been saddled with arrears due since his grandfather's time. Since Wren himself went into occupation of the cottage he had paid the rent to date.

The rent collector said that as a matter of fact Wren had not gone into possession of the cottage.

Mr. M. F. Noonan, solr., for the Board of Health—Apparently there is nobody living there.

Justice—How much is due? Rent Collector—£7 18s. 6d.

In reply to Mr. Cussen, the rent collector said the arrears of rent ran from the time of Wren's grandfather, and witness understood that Wren got the cottage on the understanding that he would clear off these arrears.

Mr. Cussen said that he did not dispute whether Wren gave the undertaking or not, but the money was due at the time of his grandfather's death.

David Wren said that his grandfather was the occupier of the cottage before him, and the Board of Health appointed witness without any arrangement about paying off the arrears being made. He was tenant of the cottage for six months before he first heard about the arrears due by his grandfather. He was appointed tenant two years ago, but he used to go out the country working.

MAY BE AWAY A COUPLE OF MONTHS. Justice—How long are you absent from the cottage at a time?—Sometimes I may be away a couple of months.

Justice—You should not have a cottage at all. Are you in service?—Yes.

Mr. Cussen said that if Wren got married he would want the cottage. (To the witness)—Are you thinking of getting married?—Yes.

Justice—Have you paid any rent yourself?—Yes.

In reply to Mr. Cussen, the witness said that he would settle down as soon as he could.

Mr. Noonan—You know that at the time this cottage was vacant after your grandfather's death there were a lot of people looking for it?—Yes.

And you know that it was out of respect for your grandfather's tenancy that the Board appointed you on your undertaking to clear off the arrears of rent due?—No.

Sir, do you give that undertaking?—No, sir.

Did your father give it?—I can't tell. Since you got this cottage how many fires have you lit in it?—Several.

You have it now two years and how many nights have you slept in it?—I don't think you can answer that?—I have slept in it several times, I was in it seven or eight months.

WORKING ABOUT FOURTEEN MILES AWAY. Justice—Where are you at present?—I am working about 14 miles away.

The Justice said he believed that Wren's father gave an undertaking to pay the arrears and Wren was backing out of it. Wren was not entitled to a labourer's cottage. He (Justice) would have to dismiss the case and he would refuse costs.

Mr. Cussen said that in this case a civil process was issued for over-holding, and he had directed the Justice's attention at the last Court to the fact that there were two actions against his client. He (Mr. Cussen) had consented, although he had a defence entered, to have the ejectment case struck out. He felt he could have pressed for a dismissal but he did not want to prejudice the matter in any way. Having regard to that he did not think the Board should refuse costs.

Dr. V. Delaney presided at a meeting of the Limerick Fishery Board to-day. The other members present were: Messrs. M. Meeley, T. O'Halloran, W. J. Hayes, G. P. Gleasure, J. Coridan, G. Lee, A. Black-Smyth, J. Dalton.

Mr. J. Daly, Clerk, was in attendance. The Department of Agriculture, writing on the subject of the destruction of seals in the Limerick district, stated that no objection would be raised to the carrying out of a limited experiment on the lines suggested by the Board. A complete report at the conclusion of the experiment should be forwarded to the Department.

The Secretary said that under the proposed scheme a man would be employed for a period of ten weeks to shoot seals. Last year's scheme was ineffective.

Chairman—Do you get an account of the number of seals shot? The Clerk said it would be started at the end of next week.

NO FURTHER INVESTIGATION. The Department of Agriculture wrote stating that in the case of William Coffey, Fiddane, Newport, who was convicted on 27th October for a breach of the Fishery Laws and fined £5 with £1 costs, no mitigation could be granted in the penalty.

The Department of Agriculture reported that he visited Nenagh to make inquiries into the poisoning of the Nenagh river. The poisoning occurred on the evening of the 10th March and a number of trout were found dead by members of the Nenagh Anglers' Association. There were more trout which were sickened by the poison but were not dead and revived after the water was changed.

CASE AT RATHKEALE COURT

At Rathkeale Court on Monday, before Mr. C. S. Kenny, B.L., D.J., Elizabeth Bennett, Ballygarry, was summoned for having had an unlicensed bull.

Mr. E. Power, solr., said that defendant was pleading guilty. She was a substantial farmer, having about 70 acres of land and about 32 milch cows. She had two bulls, in respect of one of which the prosecution was brought.

Evidence was given by a Guard that he found on defendant's land a short-horn bull calved in June, 1936. He inquired if the bull was licensed and was told that it was not. Mrs. Bennett told him that she had a lot of trouble with her cattle.

Mr. M. F. Noonan, solr. (Messrs. F. T. Liston & Co., sollicitors), for defendant—Was this bull running with the calves?—Yes.

Was there any attempt at concealment?—No.

In answer to a further question, the witness said that the requirements of the Act were carried out the same day that he called. The bull had been reared with the calves.

A general rehearsal in preparation for the Mass will take place at St. Joseph's Church on Friday, March 18th, at 3 p.m., and will be conducted by Father Burke, B.A., Dean, University College, Dublin.

BETTER STREETS

GRANT MADE AVAILABLE

In connection with a proposal made some time ago to have O'Connell Street and Saratelli Street, Limerick, resurfaced with macadam asphalt, it is now learned that this scheme will be proceeded with. The City Manager (Mr. T. C. O'Mahony) was notified that a grant would be made available to cover the cost of the work, but when tenders were received it was found that the outlay would be considerably more than the grant. As the Department is now prepared to give a grant to cover the entire cost the Manager has decided to go ahead with the scheme in due course.

SHRUBS TAKEN

From Residence Of Solicitor

A "WREN BOY" FINED

The larceny of ornamental trees from the grounds of a Rathkeale solicitor was the subject of a charge at Rathkeale Court on Monday before District Justice Kenny, B.L.

Kieran Buston, Dohle, Rathkeale, was charged with the larceny of two trees, value 5/-, the property of Mr. P. Liston. Evidence was given by Guard Dunne that on the 1st January he received a complaint from Mr. Liston that he had missed some shrubs. Witness took a slip from some similar trees in the avenue, and in the course of investigation he noticed two trees at defendant's place answering to the description of the ones that were missing. He met defendant that night and asked him where he got the trees. Defendant said he bought them with some others, but he subsequently admitted that that was not correct and that he had taken the trees from Mr. Liston's place. He made a statement to the effect that he had been from Mr. Liston's with some "wren boys" when leaving he took the trees.

The Justice, in imposing a fine of £1, and allowing 10/- compensation, said that the least defendant could have done was to conduct himself and not carry out this depredation in a gentleman's grounds.

TOWN TOPICS

THE MOTOR RACE

A special meeting of the Motor Car Race Committee will be held to-night for the purpose of appointing sub-committees and to make other necessary arrangements for the forthcoming event. Finance will be the principal question for consideration. It is obvious, of course, that without sufficient funds the fixture cannot be the great success that it otherwise would. A number of collectors will, it is understood, be appointed at to-night's meeting, and the hope is expressed that the citizens will subscribe generously. The committee require a minimum of £700, a considerable sum in itself. There is no reason, however, why the necessary financial help should not be forthcoming.

AROUND THE HOUSES

This year's race will, of course, be around-the-houses as heretofore. In that connection it can be stated that the committee propose to carry out certain improvements to the course with the object of having greater speed. It is thought that the cars, as a result, should maintain a speed of approximately one hundred miles per hour. It can be stated, too, that entries from several European countries are anticipated. Even at this early stage indications go to show that this year's Grand Prix will set up a new record not only in the matter of speed but in the number of entries as well.

AT THE PORT

An unusually large vessel, the Demeter-ton, with a cargo of 8,000 tons of wheat for Messrs. Rank, Ltd., arrived in port yesterday. She made the voyage from Portland, Oregon, and her crew is composed almost exclusively of Americans. It should be of interest to note, too, that another vessel with a cargo of wheat was docked a few hours after the arrival of the Demeter-ton. The wheat borne by the second vessel was home grown, and the port of shipment was Wexford. This is the first cargo of home grown wheat to arrive in Limerick. Many thousands of tons of the grain have, of course, been transported to Limerick by rail and road.

SHANNON AIR BASE

It is stated that the Board of Works propose to build a huge protection river wall at the Rynanna Air Base. The purpose of the wall will be to prevent flooding of the aerodrome by high tides. During last January the spring tides, especially when accompanied by gales, were in danger of flooding the low lying lands in the vicinity of Rynanna. In order to prevent such a possibility in the future it is considered advisable to have a protection wall erected. A definite decision has not yet been reached relative to this proposal, but it is an open secret that the scheme has been more or less adopted tentatively, at any rate.

THE GAELIC LEAGUE

The Gaelic League organisation will hold its annual congress this year in Limerick at Easter. The City and County Committees are at present very busily engaged making preparations for the gathering, which will, it is expected, be one of the largest ever held since the League was founded. Needless to say, the proceedings will be followed with the keenest interest by all who cherish the ambition of seeing Ireland a Gaelic speaking country once again. On Easter Monday night the delegates to the congress will hold a cullide in the Stella Ballroom, a function that is sure to be a great success.

DISTILLERY HOUSING SCHEME

The Distillery housing scheme, comprising ninety-four compact dwellings, will be completed in the early summer. As this scheme was carried out on an economic basis, the rent of each house will be approximately twelve shillings per week. The distillery site is an ideal one, and the aspect from it is charming from every point of view. The houses, which contain four living apartments, are provided with a bathroom and other amenities. It is stated that the City Manager (Mr. T. C. O'Mahony) has received over three hundred applications for tenancies. These are now being examined, and a selection, based on the size of the respective families, will be made in due course.

"ON WITH THE DANCE"

For those who are looking forward to the St. Patrick's Night dance at the Stella Ballroom, every preparation is being made by the Management. Music, floor, lighting and catering are each having special attention with the purpose of making St. Patrick's Night a memorable one for patrons of Stella dances. The music will be in the capable hands of Billy Armstrong's Band, with its glorious repertoire of all that is modern, and all the best of the old favourites which will never die. Catering will be in the efficient control of the Stella Restaurant staff—a fact which guarantees another important department. Taking it all in all this dance promises to excel all former undertakings of the Management of the Stella, and promises also a most enjoyable night to all patrons who come to the Stella on St. Patrick's Night determined to "chase the glowing hours with flying feet."

DEER FOR MINISTERS

Some of the deer in the Phoenix Park, Dublin, are shot each year and presented to high officials in the State and to the Ministers. They are invariably forwarded, however, to charitable institutions at the request of the "recipients."

ACKNOWLEDGMENT

Frawley—The husband, brother and relatives of the late Agnes Frawley, 4 Victoria Avenue, Dennybrook, wish to thank all those who sympathised with them in their recent sad bereavement. Also to those who sent Mass cards, wreaths, telegrams, letters of sympathy and trust
