OTTAWA FREE TRADER: SATURDAY, JANUARY 28, 1871.

FINANCIAL AND COMMERCIAL.

The money market in Ottawa is without material change since our last report. The demand for money continues urgent, and the supply of funds is only moderate. The banks are generally supplying their regular customers at usual rates.

In New York the market is reported easy at from 3 to 7 per cent. on call loans. In Chicago the market is reported quiet, and money a little easier; but as the supply of loanable funds is small, the banks have no disposition to expand their loans.

Government bonds are firm and prices have advanced during the week. Considerable interest has been taken on foreign account, and there is also a good investment demand.

Revere, McKinlay & Co. furnish the following Ottawa quotations:

Table with 2 columns: Item and Price. Includes U.S. 6s, 1861, 1862, 1863, 1864, 1865, 1866, 1867, 1868, 1869, 1870, Gold, Silver, Exchange on N.Y., and Foreign Exchange.
